Personality disorder

At least it makes us unique.

In English

But to be completely honest, I like the 2 gender division more than the “multi-layered” one, but unfortunately I myself fall into the latter category. At least I am aware of my “disorder”, and I am trying to come to terms with it or rather quietly move forward towards more femininity, but will I finally get there…
Only the future will tell.

Anyway, I'm not a fan of war, but I respect “all life”, whatever it may be.

Well, I try to find peace “in my mind” with those insects that come to bite me at night or something like that, but if I'm still “in pain”, I don't have mercy… but I do feel sorry for them, to be honest. At least they got back to the Creator himself, but I have to move on here in this reality.

Good luck to us in that, at least we're not at war.

Eesti keeles

Kui aga lõpuni aus olla, siis mulle endale meeldib ka rohkem see 2 sooline jaotus rohkem, kui see “mitmekihiline”, aga kahjuks mina ise jään sellesse viiimasesse lahtrisse. Vähemalt mina ise olen enda “häirest” teadlik, ja üritan sellega leppida või siis pigem vaikselt edasi liikuda rohlkem sinna naiselikkuse poole peale, aga kas ma ka sinna lõpuks jõuan, …
Eks seda näitab tulevik.

Igatahes pole mina sõjalembeline, aga mina austan “igat elu”, milline see siis ka ei oleks.

Nojah, aga neid putukaid, kes mind öösiti vms ajal hammustama tulevad, nendega püüan ka “mõttes” rahu leida, aga kui ikka mul “valus on”, ega ma siis ei halasta …, aga kahju on mul küll neist, kui aus olla. Vähemalt said nad tagasi sinna Looja enda juurde, aga mina pean siin selles reaalsuses edasi kulgema.

Edu meile selles, vähemalt meie ei sõdi.
