Microsoft SharePoint

How we can “share our viewpoint's”, …

```
I like to "organize information", so the essential info is always available when it is needed.
```

At the moment my favorite “tool” for organizing *my information here* is the DokuWiki engine, that you can see here …

I have used and managed also different document management systems like DocLOGIX, Postipoiss, Lotus Notes & GoPro, etc some other aswell.

And in the end of 199x I created myself a small document organizing tool “KAIS” for use in Estonian Competition Board, where I worked as IT specialist and in the end even as CIO.

I have been a SharePoint specialist and developer in “previous years” during my life. I have used differemt SharePoint platforms (2008, 2010, 2013, 2016 and also the SharePoint 365)-

I have also some diplomas about passing different SharePoint trainings during previous years.
